**EXPERTIndex™**

**Print, Email, Save Results**

The **EXPERTIndex™** is ToxPlanet's proprietary index feature. Containing more than 1 million unique substances, and with nearly 5 million terms and synonyms, it is an extremely powerful and efficient tool for chemical searching. When a search is conducted via the EXPERTIndex, results are consistent regardless of which synonym or chemical identifier is used. This yields a more fine-tuned search and results that are 100% relevant. In this tutorial, we will look at how to **Print**, **Email**, and **Save** results from your EXPERTIndex search.
